PROJECT INFORMATION
TITLE: **A systematic study on occurrence of endocrine disrupting compounds in low Danube basin and Black See coast** **ACRONYM:** DEBEPOLL
SUMMARY: An important group of compounds such as alkylphenols, phthalates, bisphenol A and pharmaceutical products are considered as endocrine disrupters. Their presence is related to adverse effects as cancer, infertility and alteration of the sexual organs. The main objectives of the present project are: 1) To obtain systematic analytical data on the occurrence of estrogenically active compounds in environmental sample collected from Danube and tributary rivers from low Danube basin. 2) The understanding of transport processes of endocrine disrupters in the Low Danube Basin. 3) The pollution study of the Black See coast water and sediment. Assessing effects on water quality by global change.
KEYWORDS*: EDCs, Pharmaceuticals, Danube basin pollution, Black See water pollution
CALL: BS-ERA.NET 2010
NAME(S) of the PARTNER(S) INVOLVED:
SCIENTIFIC AND TECHNOLOGICAL EXPERTISE OFFERED*: Levels and fates of organic pollutants in water by chromatography and mass spectrometry
PARTNER SOUGHT
SCIENTIFIC AND TECHNOLOGICAL EXPERTISE REQUESTED:
EXPECTE D CONTRIBUTION TO THE PROJECT:
ORGANISATION TYPE*: X☐ Higher Education X☐ Research Institute X☐ R&D Company ☐ SME ☐ Other

HOW MANY PARTNERS ARE REQUIRED?
CONTACT PERSON
NAME* : Dr. Zaharie Moldovan
TELEPHONE* : +40-264-584037
FAX: +40-264-420042
E-MAIL*: zaha@itim-cj.ro
INSTITUTION*: National Institute of Research and Development for Isotopic and Molecular Technology
ADDRESS*: Str. Donath 65-103, Cluj-Napoca
COUNTRY* : Romania
