A. Applicants eligibility

A.1 Who can apply?

(e.g. types of institutions eligible for funding: Universities, R&D Institutes, SMEs, public/private etc.)

The target groups and beneficiaries of the programme are research institutions and universities. Programme funds cover the expenses of national organisations only.

A .2 Conditions

Financing of researches in the field of international S&T cooperation is distributed within conditions of

- implementation of S&T cooperation programmes and agreements
- implementation of the bilateral international programmes and agreements

And with

- the national legislation, conditions and RTD priorities;
- the terms and conditions for submitting documents to the national funding agency;

B. Costs eligibility/budget limits

B.1 What type of costs are eligible (e.g. personnel costs, travel& subsistence, equipment, materials, organization of events etc)

In most cases the programmes launched within bilateral S&T agreements of Ukraine support personnel costs, travel& subsistence of researchers, overheads within implementation of research project.

B.2 Conditions

There is no specific budget limitation regarding the programmes. The scientific excellence of the projects is important in the evaluation process. Yet, when there is a budgetary limitation from the other side, the projects are rated and the highest rates are granted provided both sides agree upon it.

C. Project Proposals Eligibility

C.1 Phases of R&D being funded: (basic research, applied research, innovation, , serial production etc), funding rates (app.)

Within the programme complex pre-competitive research projects can be funded, including basic research and support activities.

C.2 Conditions

The research projects have to correspond the following conditions:

- correspondence of scientific or scientific-technical project to themes, aims and conditions of the competition;
- containing novelty in ideas, approach and used technologies;
- actuality of the final result, expediency of its practical usage, scientific importance of the project;
- possibility to introduce the project implementation results.
