What is BS-ERA.NET ?

BS-ERA.NET (Networking on Science and Technology in the Black Sea Region) is a networking project aimed at integrating the participating countries from the Black Sea extended region in the European Research Area by linking research activities within existing national, bilateral and regional RTD programmes.

The strategic objective of the BS-ERA.NET takes into account the current situation existing in the Black Sea Region concerning the aspects of the institutional structures, decision making lines, bureaucratic threats and access to information.

BSRP Concept

The Black Sea Research Programme aims to represent the strongest form of networking in different aspects of SGT affairs in the region with strong emphasis on transnationality and regional benefit. Hence, it will set up a common strategy, a joint work programme and joint targeted actions.

The Black Sea Research Programme has been designed as a complementing instrument to existing policy documents with specific provisions on:

- Support of Joint Research Projects (based on the experience of the BS-ERA.NET Pilot Joint Call - PJG)
- Capacity Building
- Mobility of Researchers
- Innovation
- Research Infrastructures
- Monitoring, Foresight, Outreach, Dissemination
